Dear Hiring Manager

I am writing to formally express my strong interest in the Field Technical Support Engineer position at South Asialink Finance Corporation, as advertised on your careers page. I am eager to join your growing team and confident that my skills and willingness to work on-site and in the field make me a strong fit for this role.

From the job description, this position requires troubleshooting hardware and software issues, installing and maintaining IT equipment, providing timely technical support to clients, and coordinating with internal teams to resolve concerns. I possess solid foundational knowledge of computer hardware, software, and networking, and I am capable of diagnosing and resolving technical problems efficiently to ensure minimal downtime and smooth system operations.

I have good communication skills and the ability to explain technical matters clearly to end-users and colleagues alike. I am dependable, detail-oriented, and ready to document issues and solutions properly. I am fully willing to work on-site and travel to different locations as needed to deliver hands-on support.

I hold a PHINMA Araullo University with relevant experience/training in information technology, and I am committed to performing my duties with professionalism and dedication. I am eager to contribute to SAFC's efficiency and success by ensuring your client systems run reliably and your team receives dependable technical support.

I would welcome the opportunity to discuss how I can contribute to your team in an interview. Thank you for considering my application. I look forward to hearing from you soon.

Sincerely,

GENCHEZ, MICHAEL
ANGELO, N.

The screenshot shows the SAFC (South Asialink Finance Corporation) website. The header includes the SAFC logo, navigation links (Home, About Us, Careers, Products & Services, Contact), and an 'Apply Now' button. The main banner reads 'Join Our Team' with the text 'Build your career with SAFC. We are always looking for talented and passionate individuals to be part of our growing team.' Below this, a link for 'Back to Careers' is present. The job title 'Field Technical Support Engineer' is prominently displayed. Job details include: 'Full-time', 'On-site (Field)', a salary range of 'P18,000 – P21,000 / month', and the location 'Nueva Ecija, Philippines'. The 'About the Job' section describes the role as providing on-site and field support for hardware and software issues. The 'Key Responsibilities' list includes troubleshooting, installation, configuration, maintenance, documentation, and coordination. The 'Qualifications' section lists a bachelor's degree in IT or related field, basic knowledge of computer hardware, software, and networking, good communication skills, and willingness to work on-site and in the field. An 'Apply Now' button is located at the bottom of the job listing.

Field Technical Support Engineer

Full-time On-site (Field) P18,000 – P21,000 / month Nueva Ecija, Philippines

About the Job

The Field Technical Support Engineer provides on-site and field support for hardware and software issues, ensuring minimal downtime and smooth operations of client systems. This role involves troubleshooting, installation, configuration, and maintenance of IT equipment and software, as well as coordinating with clients and internal teams to resolve technical concerns.

Key Responsibilities

- Troubleshoot and resolve hardware and software issues (on-site and field).
- Install, configure, and maintain IT equipment and systems.
- Provide technical support to clients and end-users.
- Document issues and solutions in a timely manner.
- Coordinate with internal teams for escalations and follow-ups.

Qualifications

- Bachelor's degree in Information Technology, Computer Engineering, or related course (or SHS Graduate with relevant IT experience).
- Basic knowledge of computer hardware, software, and networking.
- Good communication and problem-solving skills.
- Willing to work on-site and in the field.

JOB/EMPLOYER REFERENCE:

Company: South Asialink Finance Corporation (SAFC)

Position: Field Technical Support Engineer

Location: Nueva Ecija, Philippines

Salary Range: ₱18,000 – ₱21,000/month

Employment Type: Full-time, On-site (Field)

Date: September 23, 2026

PROCESS AND INTEGRITY NOTE:

I created my professional application portfolio for a Field Technical Support Engineer position at South Asialink Finance Corporation (SAFC) that I found on the company's official careers page. I chose this job offer because it clearly specifies the information regarding the position, company, location, salary range, and work arrangement. At the same time, I managed to learn more about the role and the organization by reviewing the details provided in the job posting. I used the information shared in the job offer to prepare my resume, cover letter, and job reference materials.

I used an AI as an assistant to help me organize the information, perfect the language used, and format the document correctly, and I also used available resources to find proper examples and guidelines for a resume, cover letter, job reference, and process and integrity note. However, I proofread and edited the final version of every paper to ensure that the content accurately reflects my educational background, skills, work experience, and genuine qualifications. In addition, I made sure that all information in my application portfolio is up-to-date and does not contain any fabrication, exaggeration, or misinformation.

Moreover, I took great care to ensure that my application portfolio does not contain any private or sensitive information. In this respect, I removed any identifying or confidential details—such as personal identification numbers, sensitive contact data, or private records—that might have appeared in the documents by mistake. Lastly, I ensured that the layout of the application portfolio is not cluttered and that the information is easy to follow and organized logically. Before submitting the portfolio, I reviewed and edited the documents to check for possible grammatical errors, formatting issues, and other problems.
